Ship/Activity: SMIT Misc Rigging

Title: Manufacture of Nine Heavy Lift Bags

Place of Performance: Vendors Facility

**1. BACKGROUND:** The NAVSUP Fleet Logistics Center Puget Sound, Puget Sound Naval Shipyard, and Intermediate Maintenance Facility (PSNS/IMF), in support of the SMIT Project, requires sewing shop services to finish Nine (9) Heavy Lift Bags, per DWG 8423904(B) to include the bottom plates.

**2. SCOPE:**

A. The contractor will provide all labor and materials to manufacture nine (9) lift bags, part number 8423904 per DWG 8423904(B), to include the bottom plates. All materials listed on the drawing must be provided as listed, including the specific configuration of the hoisting rings listed in paragraph 3.3.5. Any substitution of materials due to lack of availability or other reason must be pre-approved before award. A possible source of military grade fabrics is [www.militarytextiles.com](http://www.militarytextiles.com).

Reference document:

Reference A: Drawing 8423904-B - HEAVY LIFT BAG

**NOTE: If procured from other than the approved drawing source, first article testing is required per note 6.2 through 6.2.3. See notes 3.7, 4.2, 4.3, and 6.2 for specifics.**

C. Costs for Packaging and protecting the finished bags for shipment will be provided by the vendor.

**3. Deliverable Items:** In addition to the nine bags, complete with bottom plates fabricated in accordance with DWG 8423904(B). Approved source of supply shall provide Quality Conformance Inspection, per general notes paragraph 4.3 of DWG 8423904(B), Inspection may be provided on company letterhead and legibly signed by an authorized company representative. **If procured from other than the approved drawing source, first article testing is required.**

**4. Contractor Furnished Materials:** Contractor is to furnish labor and all materials, required to fabricate 9 each heavy lifting bags per 8423904-B , including bottom plates.

**5. Government Furnished Materials:** NONE

**6. Quality Assurance Requirements:** If supplied by approved drawing source clause C501 Certificate of Compliance (COC) stating the Heavy Lift Bags is manufactured in accordance with the drawing (DWG 8423904-B) will be sufficient. COC must contain, a minimum, the following four additional items: A) The contractors name, address, phone number, and date; B) The issuing agencies purchase order number, C) Item nomenclature of the purchased item; and D) Contractors Quality Assurance Representative signature.

**Note:** If procured from other than the approved source, listed in DWG 8423904(B). Proof of performance of items A through F in paragraph 4.3 is required. To include minimum requirements for COC listed above in this statement of work.

**7. Security:** All references and deliverable items associated with this task are unclassified. There are no other known requirements for access to restricted areas or information connected with the performance of this task. Access to PSNS is not required for this work.

**8. Travel:** There are no known travel requirements.

**9. Government Surveillance Officer:** Michael Welch, C/122.2, 360-627-5095, Michael.v.welch1@navy.mil. Any items concerning contractual requirements or funding must be addressed to the DLA buyer as well as the surveillance officer.
